

Surya

*A widely preferred
Textile Weaver, Processor and
Garment Manufacturer*

**Surya Processors
Private Limited**

Overview

Surya Processors Private Limited (SPPL), a name widely preferred and trusted for its high quality and commitments in the textile world, started operations in the year 1986 in Ghaziabad (20 km from New Delhi, India). The facility started with Fabric Dyeing and Finishing capabilities and has since expanded into Readymade Garments and Corduroy manufacturing. SPPL, with a flair for perfection, serves both domestic and international markets. It has established a name for itself for its novel designs, excellent quality and has the best work force and technology. With more than 2,75,000 sq. ft. of production area, SPPL has a capacity to process 100,000 meters of fabric per day and manufacture 50,000 garments per month.

With the commitment to do dedicated and diligent work, SPPL has been successful in winning over some great line of clientage both in domestic market and overseas. It's fabric ends up in brands like GAP, J.C. Penney & Colby of US, NEXT-IMPULSE of UK, OTTO of Germany and H&M of Sweden.

Our Belief Our Inspiration

"Nothing can replace the level of contentment and satisfaction one achieves by giving one's hundred percent."

At SPPL, we believe in giving our best to each and every product we manufacture. Our passion for our work echoes its own story. We aspire to deliver garments and fabrics through the integration of best of our human resources and the best technology because our clients' and customers' satisfaction serves as our belief, our inspiration.

Corporate Mission

To market garments and fabric developed and manufactured through the integration of people, technology, and business systems, and achieving leadership in quality, cost, and customer satisfaction.

Powered by Quality

There is no scope for mistakes in the present dynamic Indian textile industry. The very belief of the organization and its work force in giving their best shot has brought us face to face with the global market. It has provided us with an inspiration to deliver products that call for perfection not only to the domestic but the international clients too. Working hard to our full potential has made us produce quality products and winning the trust of our customers and clients.

Our in-house production facilities promise to deliver each and every product through complete quality tests. We always make an effort towards building mutually beneficial relationships with our vendors and employees.
